Leaf:	Green, pointed, grass-like leaves
Mature Size:	0.7m H x 0.7m S/Open clump forming
Preferred Location:	Garden border
Likes:	Full sun and rich free draining soils
Dislikes:	Water logged soil and temperatures below -5°C
Grown in:	Ireland

Dierama is more commonly known as Angel's fishing rod. 'Blue Belle' is a stunning new variety of this South African native plant with long narrow strap like leaves and arching stems carrying hanging bell shaped blue/lilac flowers in mid to late summer. Dierama 'Blue Belle' is best grown in a free draining moist soil in full sun to light shade.
