Dierama 'Guinevere'

Dierama 'Guinevere' or more commonly known as '*Angels fishing rod*' is a perennial with clusters of pure white flowers along the arching flower stem in summer. It is an elegant feature plant that prefers a sunny sheltered position in the garden. This plant prefers to grow undisturbed but also can be planted in containers on the patio provided it is kept moist at all times. It is ideal for flower arranging and its graceful seedheads provide year round attraction.

Flower: Pure white on long pendulous stems during summer

Leaf: Green pointed grass-like

Size: 1m H x 0.5m S/
Open clump forming

Preferred Location: Garden border/Pond edge/
Planted Arrangement

Likes:  Sun/Most garden soils

Dislikes:  Water logged soil and temperatures below -10°C/14°F.

**For decoration purposes only,
not fit for consumption.**
