Grown in:	Ireland

Lophomyrtus 'Black Pearl' is another new Lophomyrtus variety with compact growth and colourful foliage. The leaves are round and shiny in a dark purple colour. 'Black Pearl' has the darkest foliage and is a real addition to the range of evergreen shrubs. In mild areas it is an excellent garden plant, but it can also be easily kept in a patio container where it can be overwintered frost free. Easy to grow, with scented flowers and dark purple evergreen foliage 'Black Pearl' is a must have for your garden or patio.
