

## Acorus gramineus 'Ogon'

### **For Garden and Container**

Striking gold and green variegated foliage ideal for containers or planting in damp or wet areas.

Bright shining foliage stands out distinctively during Winter months and moves and shimmers in light Summer breeze.

Combines well with other foliage plants in mixed containers or planters.

Unusual fan shaped growth habit makes it suitable for over hanging in ponds or over container edges.

Easy maintenance in a wide range of soil conditions.

**Attractive Bold Foliage**
